✓ - Ex-stock • - Against Order | Ordering Example: Code - Quantity | VE7.1/008 - 8 Pcs

Notes:

- For plastic injection moulding
- Applicable for thin wall products
- Increased productivity through fast & easy exchange of air from venting plug
- High venting efficiency
- High thermal conductivity

- Long durability
- Corrosion resistant
- ◆ Air Vent is machinable. For Machining guide Please refer to page No. 423
- Also available in Block form
